# Install e-Dokyumento ISO

1.   Burn the ISO into CD and use it to boot from PC; or boot directly the VM using the ISO.
2.   Select 'Boot system installer' and press enter.

3.   The system will boot until the desktop login appears.

4.   On the desktop login, type 'root' for username press enter, then type 'admin@123' for password.

5.   Upon showing the System Install window, type-in the needed information in the textbox then click next.
